

DR100K

Fuel Type

Wood

Oven Type

Rotary

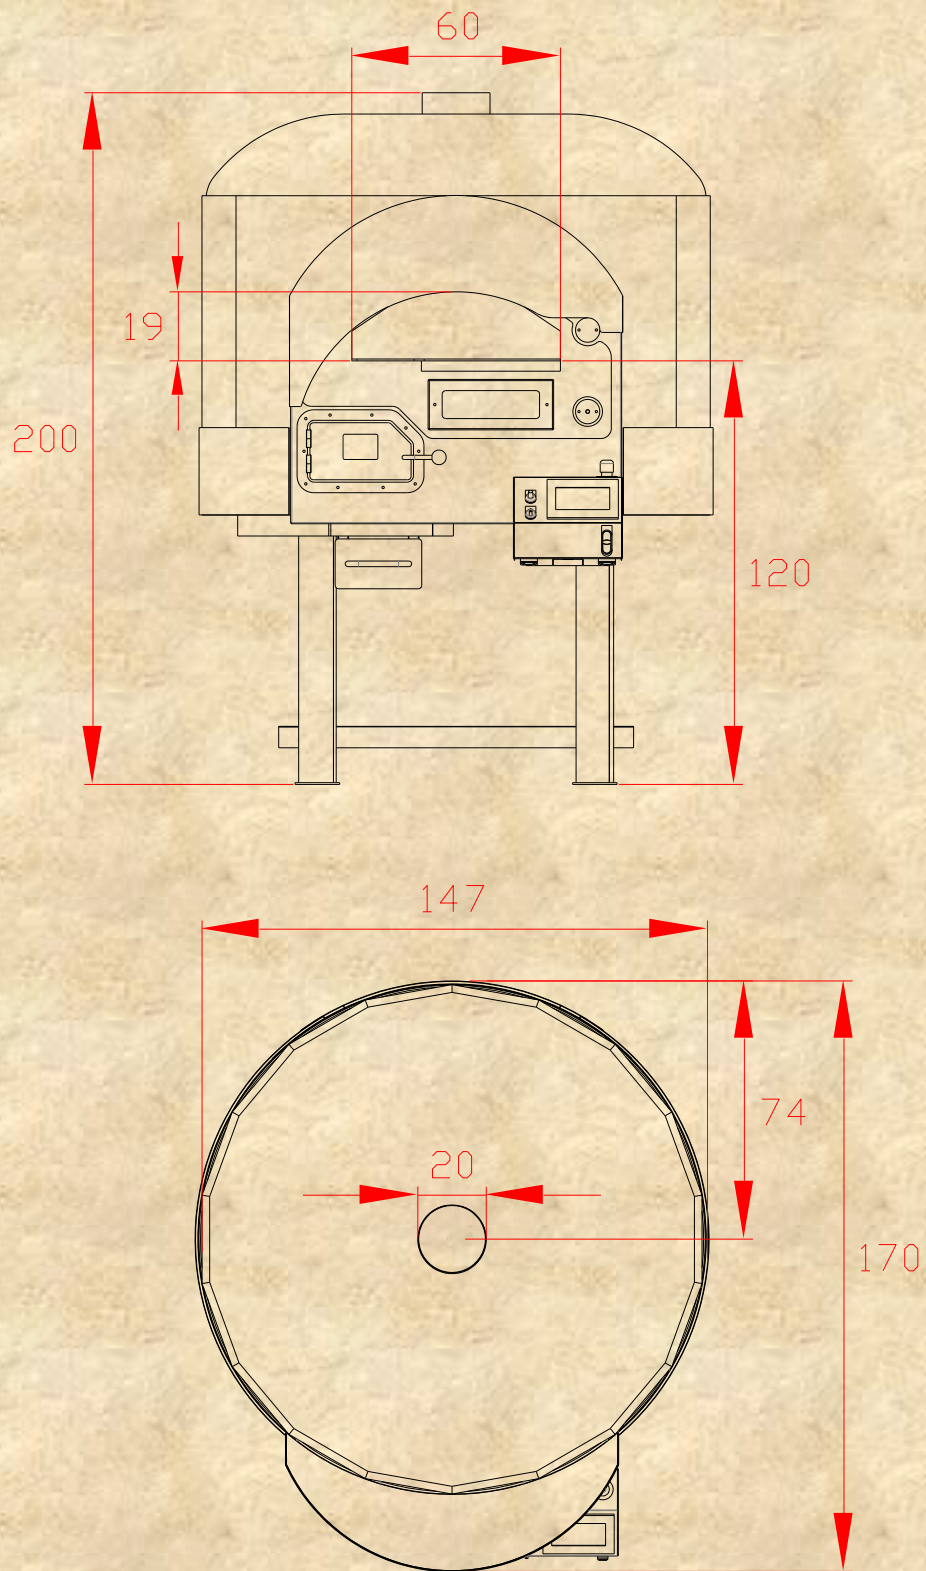

Silicone Coating

Practical, compact, stylish - all words that describe this particular product. Our model DR100K is a wood fuel pizza with a rotating base adjustable for speed and direction of rotation, capable to bake up to 90 pizzas per hour. Very attractive and elegant with double door – one for the main baking chamber and additional door for the wood burning chamber. A separate drawer for the wood burning ashes. Modern wood oven with very high durability and efficiency – this is what this model offers. Produced in two designs – silicone coating and mosaic finish with various color options.
